

I urge the commission not to weaken the protection I have under Indiana's Do-Not-Call list. I know some commercial business people want the ability to call me because at some point in the past we did business.

That is wrong. I put my name on the list because I do not want to receive unsolicited calls disrupting my family time. Please reject the efforts of the Consumer Bankers Association to invade my privacy.

Please do not weaken the Indiana law by accepting the position of these businesses. Protect citizens. Thank you.

Donald O. Schoolcraft
